Subject: DWR Decision Regarding Award of \$2 Million in Additional Funds for Proposition 13 Groundwater Storage Construction Grant Program
Date: Thursday, December 28, 2006 11:17:39 AM
Attachments:

December 28, 2006

Dear Applicants:

The Department of Water Resources (DWR) has completed the solicitation process among current grantees related to \$2 million in additional available funding from the Proposition 13 Groundwater Storage Grant Program.

Notice was sent to all current grantees of the fund's availability. On September 22, 2006 DWR received 15 proposals. Approximately \$20.3 million in additional grant funding was requested for projects totaling over \$808.8 million.

Based on a review of the proposals, DWR has determined that \$1

million each from Proposition 13 Groundwater Storage Construction Grant funding will be encumbered to Kern County Water Agency and Yuba County Water Agency to augment grants previously awarded.

We appreciate everyone's interest and participation in the solicitation process.

In the event that additional funding becomes available in the future, agencies that have participated in this solicitation process will be considered for funding.

If you have any questions please contact Joseph Chang at (916) 651-9221.

Thank You

Norman Shopay, P.G.
